Hide an element to all devices **except screen readers** with `.sr-only`. Combine `.sr-only` with `.sr-only-focusable` to show the element again when it's focused (e.g. by a keyboard-only user). Can also be used as mixins.

```
<a class="sr-only sr-only-focusable" href="#content">Skip to main content</a>
```

[Copy](#)

```
// Usage as a mixin
.skip-navigation {
  @include sr-only;
  @include sr-only-focusable;
}
```
